RS PRO

CONTENTS

YOUR SMART CHOICE

- We have expanded our range with 10,000 new products.

- The RS website now features a Google AI-based search engine, which makes it easier to search for products.

- Furthermore, we are also incorporating 3D models and explanatory videos in many of our RS PRO products, to make it easier for you to make the right choice.

- Finally, during 2025 RS PRO will add the entire range of Reldeen and Pro-FIT to its catalogue, as well as the own brands of the companies specialised in PPE, Needlers and Liscombe, recently acquired by RS.

- And to top it all off, we have just celebrated 8 years of history!

MORE THAN 90,000 PRODUCTS | 31 GLOBAL LOCATIONS | 600,000 CLIENTS AROUND THE WORLD

RS PRO is an RS own brand. With the most expansive offering in the sector, spanning all technologies and industries, we can combine products into integrated solutions to make our clients' professional lives easier.

We simplify procurement, thus guaranteeing unequalled value and efficiency.
The RS PRO seal of approval is your assurance of professional quality, a guarantee that each part has been rigorously tested, inspected and audited in line with strict standards.

Industrial quality in all products, backed by our **quality seal**, awarded after a rigorous audit, inspection and testing process

AUDITED ▶ **INSPECTED** ▶ **TESTED** ▶
Complies with industry standards | To guarantee maximum performance and quality | By qualified engineers

CLAMP METERS

- Highly reliable clamp meters at an affordable price, ideal for maintenance work
- To verify the presence of load current, voltage, resistance and other parameters, depending on the model

123-3252	ICM30R clamp meter, 300 A ac/dc, 600 V ac/dc, CAT II 600V
146-9096	RS338 mini clamp meter, 600V ac/dc, 10 A ac/dc, CAT III 600 V
123-3256	ICMA1 clamp meter, 300A ac/dc, CAT III 600 V
123-1936	RS330 clamp meter, 400 A ac, 600 V ac/dc, CAT II 1000 V / CAT III 600 V
123-1935	RS380 clamp meter, 400 A ac, 600 V ac/dc, CAT III 600 V
200-3702	High performance clamp meter, 1000 A ac/dc, 600 V ac/dc, CAT III 1000V / CAT IV 600V

DIGITAL MULTIMETERS

- Portable and compact multimeters with a wide variety of measuring functions, such as current, voltage, continuity, diode, resistance, temperature, depending on the model
- LCD display for easy measurement reading

161-1625	RS-660 multimeter, 600V ac/dc, 10A ac/dc
123-1939	RS12 multimeter, 600V ac/dc, 10A dc, CAT III 600 V
123-1938	RS14 multimeter, 600V ac/dc, 10 A ac/dc, CAT III 600 V
146-9085	RS-960 multimeter, 600V ac/dc, 10A ac/dc, CAT II 1000V / CAT III 600V
123-3237	IDM61 multimeter, 750V ac/1000V dc, CAT II 1000V / CAT III 600V
161-1629	RS-9660B multimeter, 1000V ac/dc, 10A ac/dc, CAT III 1000V / CAT IV 600V

INSULATION TESTERS

- Before starting your equipment, check the insulation of your cables, motors and generators to avoid possible damage
- Insulation testers help the technicians determine the condition of the electrical equipment during maintenance work

123-1931	Insulation tester RS5500, 1000 V, 2 GΩ, CAT III 1000 V
123-1934	Insulation tester RS5505, 1000 V, 4 GΩ, CAT III 1000 V
123-3220	Insulation tester IIT1500, 1000 V, 20 GΩ, CAT IV 600V

TEST CABLES

- Wide selection of test cables available with different test connectors, cable colours and lengths

125-3733	1.2 m test lead set, CAT III 1000 V, provided with alligator clips
161-6511	Set of 0.5 m test leads with insulated alligator clips
243-2998	1.2 m test lead set with silicone case, CAT III 1000V
125-3736	1.2 m test lead set with silicone case and insulated connectors, CAT III 1000 V / CAT IV 600 V

MAGNETIC FIELD AND VOLTAGE DETECTORS

- Reliably detect magnetic fields and voltages with contactless detectors
- The tips of the detectors light when a magnetic field or voltage is detected
- The voltage detectors also emit a sound signal

375-5422	Contactless magnetic field detector, CAT III 1000 V
141-1996	Contactless magnetic field detector, ATEX approved
161-1627	Contactless voltage detector, CAT III 1000 V / CAT IV 600 V
123-3247	Contactless voltage detector, IVP-1, CAT III 1000 V / CAT IV 600 V
136-5675	Contactless voltage detector, RS VP-4, CAT IV 1000 V

THERMAL IMAGING CAMERAS

- Suitable for inspection and preventive maintenance work
- To detect any thermal anomaly quickly and accurately
- Light, compact and drop-proof design
- Various models with different resolutions and temperature ranges available

193-8700	Thermal imaging camera, DT-870, +20 to +380 °C, 80 x 80 pixels, non-focusing
230-9294	RS-986 WiFi thermal imaging camera, -20 °C to + 550 °C, 256 x 192 pixels, non-focusing
136-5668	Thermal imaging camera, RS730, 0 a +350 °C, 160 x 120 pixels, manual focusing

INFRARED THERMOMETERS

- Easy to use and versatile, ideal for a wide range of applications
- To monitor the temperature of an object where the use of a probe is not suitable
- Models with different temperature ranges and accuracies provided

136-7890	IR RS-820 thermometer, -50°C a +380 °C, ±1% accuracy
206-8741	IR RS-833 thermometer, -50°C a +650 °C, ±1 °C accuracy
206-8742	IR RS-836 thermometer, -50°C a +1000 °C, ±1 °C accuracy
193-8691	IR RS-8861 thermometer, -50°C a +550 °C, ±1% accuracy
123-2216	IR RS-1327 thermometer, -20°C a +500 °C, ±2% accuracy

GAS LEAK DETECTORS

- A gas detector is essential to identify the presence of flammable gas leaks such as gasoline vapours, methane, and other gases related to the installation and maintenance of gas lines

144-5342	RS GD-36 gas leak detector with 5 visual gas concentration levels
144-5341	RS GD-38 gas leak detector with LED display

ANEMOMETER

- Indispensable device for controlling air-conditioning systems
- Its big display enables convenient reading of air velocity, volumetric flow rate and air temperature thanks to the integrated NTC sensor

193-8696	DT-3893 windlass anemometer with integrated temperature sensor

DIGITAL LUX METERS

- It has been shown that a poorly lit workspace can cause eye strain, headaches, stress, reduced ability to concentrate, low mood and even accidents
- Lux meters are the perfect devices to check the illumination of your facilities

123-2220	ILM 1332 lux meter, 0 lx to 200 klx, resolution 0.1 lx
123-2221	ILM 1335 lux meter, 0 lx to 400 klx, resolution 0.01 lx
123-2222	ILM 1337 lux meter, 0 lx to 20 klx, resolution 0.01 lx

TACHOMETERS

- Check the performance of your rotating system, such as motors, conveyor belts, by measuring the rotational speed, shown in revolutions per minute (RPM)
- This will allow you to optimize the system load, improving the efficiency of the system, avoiding possible overloads

193-8687	RS AT-6 contactless laser tachometer
193-8688	RS AT-8 contact/contactless tachometer

THERMO HYGROMETER

- This thermo hygrometer with big LCD display is perfect for measuring temperature and relative humidity in crowded spaces such as offices or warehouses
- For monitoring air quality and environmental comfort levels

195-9129	Digital thermo hygrometer with big display

RS PRO

TOOL KITS

- The RS PRO tool kits have been designed so that every professional has the tools they use most frequently always at hand and tidy
- Various options available for mechanics, maintenance technicians, electronic engineers, plumbers, etc.

734-8885	88-piece electrician's tool case
734-8889	94-piece mechanic's tool case

ELECTRONICS CUTTING PLIERS

- Everything is smaller in electronics – these electronics cutting pliers are a tool adapted for precision cutting
- Provide a flush cut

606-490	Side cutting pliers for electronics

ALLEN KEY SETS

- Ball end angled Allen key sets available in metric or imperial (fraction of an inch)
- Wide selection of long or short models with chrome or black finish

542-3509	15-piece long Allen key set with chrome-plated finish, 1.27 → 10 mm
449-9606	9-piece long Allen key set with black finish, 1.5 → 10 mm
541-7324	Kit of three sets of metric and imperial Allen keys, 33 pcs.

TOOL BAGS

- Optimize your movements and increase your work efficiency by having your tools always perfectly organized in our tool bags, renowned for their strength and durability

788-7205	Tool bag with hard bottom, 310 x 200 x 210 mm
788-7223	Electrician's tool bag, 400 x 190 x 300 mm

EQUIPPED TOOL TROLLEY

- Tool trolleys are an excellent solution for keeping all types of tools organized in one place
- This model comes fully equipped with EVA rubber modules to ensure organized storage of your tools

125-3046	Tool trolley with seven drawers and 240 tools

INSULATED SCREWDRIVER SET

- These screwdrivers are tools for everyday use, and to ensure maximum user comfort, this insulated screwdriver set features ergonomic handles made of soft, non-slip material for excellent grip
- They are VDE compliant for safe operation up to 1000 V

253-015	Set of 10 insulated screwdrivers, 5 flat, 3 Phillips and 2 Pozidriv

SOLDERING STATION

• Soldering station with backlit LCD display for clearly visible temperature information
• Quick and easy set point temperature adjustment
• Includes central power unit, a soldering iron and a soldering iron stand

799-8941   90W single-channel soldering station, max. temperature 500 °C

HOT AIR REWORK STATION

• Ideal for repair work, this hot air station allows heat to be applied to a specific area of the PCB for desoldering SMD components
• A soldering iron is available for component repositioning

124-4134   Hot air rework station

SOLDER WIRES FOR SOLDERING

• Composed mainly of tin, these high quality wires are characterized by their low melting point, which allows efficient melting during the soldering process.
• Available in various alloys, leaded and lead-free, to suit a variety of applications and standards.

800-7661	0.71 mm solder wire, melting at: 183°C, composition: Sn 60%, Pb 40%, weight 250g
800-7655	1.01 mm lead-free solder wire, melting at: 217°C, composition: Sn 96.5%, Cu 0.5%, Ag 3%, weight 250g
179-6660	1 mm solder wire, melting at: 183°C, composition: Sn 60%, Pb 40%, weight 250g
179-6662	1.2 mm solder wire, melting at: 183°C, composition: Sn 60%, Pb 40%, weight 250g
179-6661	1 mm solder wire, melting at: 183°C, composition: Sn 60%, Pb 40%, weight 500g
179-6663	1.2 mm solder wire, melting at: 183°C, composition: Sn 60%, Pb 40%, weight 500g

THIRD HAND WITH MAGNIFYING GLASS

• This soldering stand, also known as "third hand", provides an enlarged view with a magnifying glass up to 6.25X and a secure grip with alligator clips, ideal for detailed SMD soldering work

146-6439   Soldering stand with magnifying glass and alligator clips

SMOKE EXTRACTOR

• Specially designed for soldering work, prevents the user from breathing fumes while soldering
• It has a compartment for an active carbon filter that holds harmful particles

123-4905   Smoke extractor

PRESATURATED ISOPROPYL ALCOHOL WIPES

• These wipes impregnated with isopropyl alcohol ensure effective cleaning of solder rosin residues, guaranteeing quick and safe drying of sensitive PCB surfaces without leaving traces of cloth or fibres.

175-7848   Container of 100 presaturated isopropyl alcohol (IPA) wipes

RS PRO

THICKNESS GAUGE

- Measures the thickness of the layer of paint or other non-magnetic product applied such as zinc on steel or insulating coatings on non-ferrous metals
- Thanks to the memory included in the device, it can record the measurements and transfer the data to a PC for further analysis

| **192-4382** | RS-156H coating thickness gauge, up to 1350 µm |

MICROMETERS

- Micrometers are measuring instruments used to obtain very precise measurements in the order of hundredths or thousandths of a millimetre
- Reads in millimetres or inches
- Calibrated versions available

| **705-1229** | Digital micrometer, 0-25 mm, resolution 0.001 mm |
| **725-5724** | Analogue micrometer, 0-25 mm, resolution 0.01 mm |

BORE GAUGES

- These bore gauges are accurate measuring tools, designed to check specific dimensions and evaluate the roundness of drilled holes

| **785-7881** | 51-piece bore gauge set, for diameters from 1 mm → 6 mm |
| **785-7884** | 41-piece bore gauge set, for diameters from 6 mm → 10 mm |

CALLIPER

- Indispensable tool for machining work, that precisely measures the dimensions of a workpiece and the diameter of the bores
- Reads in millimetres or inches
- Calibrated versions available

243-6615	150 mm digital calliper, imperial and metric reading, 0.03 mm accuracy
243-6616	150 mm digital calliper, metric reading, 0.03 mm accuracy
243-6621	300 mm digital calliper, metric reading, 0.03 mm accuracy

THREAD GAUGES

- Thread gauges are a very easy to use tool, which are very useful to identify the correct thread pitch
- They are composed of different sheets with thread pitches that are discarded until the one that fits the thread perfectly is found

387-0183	Thread gauges for imperial and metric systems, 28 blades
683-0756	Whitworth thread gauges, 27 blades
683-0737	Metric thread gauges, 28 blades
387-0199	Metric thread gauges, 28 blades

SCALES

- These high-precision scales provide five different weight units (g, lb, ml, fl, oz), making them versatile measuring devices
- Their compact and light design makes them easy to transport

| **202-8725** | 3kg scale, resolution 0.1 g |
| **202-8726** | 5kg scale, resolution 1 g |
| **202-8727** | 10kg scale, resolution 1 g |

COPPER SHEETS AND PIPES

• Copper is probably the oldest metal used by humankind, it has a wide application in various industries, such as wiring, circuit boards, fasteners, pipes and connections, among other uses
• Available in various dimensions and shapes

680-959	Copper sheet, length 300 x 300 mm, thickness 0.35 mm
684-248	Copper rod, 3 mm x 1 m

SILICONE SHEETS

• Waterproof silicone rubber sheeting with good UV and ozone resistance
• Temperature resistance from -60 °C to +200 °C
• Versions with or without adhesive
• Different sheet thicknesses available

733-6719	White silicone sheet, 1 m x 600 mm x 1.5 mm
733-6729	White self-adhesive silicone sheet, 1 m x 600 mm x 3 mm
733-6738	White self-adhesive silicone sheet, 1 m x 600 mm x 6 mm

STAINLESS STEEL SHEETS

• Wide selection of 304 and 316 stainless steel sheets
• The main difference between the two materials is that 316 stainless steel contains molybdenum, a component that increases corrosion resistance, especially in more salty and aggressive environments, ideal for the marine industry
• Various dimensions available

770-2961	Stainless steel sheet 304, 300 mm x 300 mm, thickness 1 mm
770-2968	Stainless steel sheet 304, 1000 mm x 500 mm, thickness 1 mm
770-2977	Stainless steel sheet 304, 1000 mm x 1000 mm, thickness 1 mm
264-7241	Stainless steel sheet 316, 500 mm x 300 mm, thickness 1 mm
264-7263	Stainless steel sheet 316, 500 mm x 300 mm, thickness 1.5 mm
264-7279	Stainless steel sheet 316, 500 mm x 300 mm, thickness 2.5 mm

ALUMINIUM RIBBED SHEETS

• Aluminium ribbed sheets stand out with a design that provides increased structural strength and a non-slip surface
• Widely used on platforms, stairs and areas prone to slippery conditions
• Available in different thicknesses and sizes

495-322	Aluminium ribbed sheet, 2 x 1 m, thickness 3 mm
495-338	Aluminium ribbed sheet, 2.5 x 1.25 m, thickness 2 mm

STAINLESS STEEL TUBES

• Suitable for transporting large volumes of liquids and gases at high speed, these stainless steel tubes withstand pressures up to 75 bar
• Excellent corrosion resistance
• 2 metres long

190-866	Stainless steel tubes, ext. Ø 6 mm, 0.6 mm wall, 2 pcs.
190-872	Stainless steel tubes, ext. Ø 8 mm, 0.6 mm wall, 2 pcs.
437-3699	Stainless steel tubes, ext. Ø 8 mm, 0.6 mm wall, 5 pcs.
190-888	Stainless steel tubes, ext. Ø 12 mm, 1 mm wall, 2 pcs.

STEEL ANGLES

• Steel angles are very useful in industry, allowing the construction of strong structures or the addition of structural supports to install new cable trays
• Various sizes available

770-620	Steel angle, 20 mm x 20 mm x 3 mm, length 1 m
770-636	Steel angle, 25 mm x 25 mm x 3 mm, length 1 m
770-642	Steel angle, 40 mm x 40 mm x 5 mm, length 1 m
770-658	Steel angle, 50 mm x 50 mm x 6 mm, length 1 m

PID AND ON/OFF TEMPERATURE CONTROLLERS

- These temperature controllers with universal input enable simple ON/OFF temperature control or more elaborate control via a PID system
- Easy to configure thanks to the OLED display and three buttons on the front panel
- DIN rail mounting

144-8681	Temperature controller with universal input, 3 outputs, power supply 240 V ac
144-8679	Temperature controller with universal input, 3 outputs, power supply 24 V ac / dc

XENON INDICATOR LIGHTS

- Strong flashing light signal
- Available in red or amber
- Suitable for a wide range of signalling applications
- Quick and easy installation
- Snap-on mounting plate design
- IP67 protection against dust and water entry

187-9654	Amber beacon, power supply 10 → 100 V dc, 20 → 72 V ac
187-9651	Red beacon, power supply 10 → 100 V dc, 20 → 72 V ac
187-9652	Amber beacon, power supply 18 → 30 V dc
187-9653	Red beacon, power supply 18 → 30 V dc
187-9648	Amber beacon, power supply 115 → 230 V ac
187-9650	Red beacon, power supply 115 → 230 V ac

PROGRAMMABLE COUNTERS

- 6-digit LED display
- NEMA 4X protection
- Relay output SPST 5 A at 250 V
- Compatible with NPN or PNP proximity
- Manual and automatic reset options

808-6614	24 V ac / dc counter, bidirectional counting, 48x48 format
808-6636	24 V ac / dc counter, bidirectional counting, 96x48 format
808-6639	Counter 230 V ac, counting seconds, 96x96 format

DIGITAL TIMERS FOR DIN RAIL

- Programmable timers with three-line LCD display
- Pulsed output configuration, ideal for alarms or daily and weekly intervals
- Manual override and easy reset functions

896-6876	24h/7 programmable timer, with ON/OFF output, power supply 110 → 240 V ac
896-6885	24h/7 programmable timer, with pulsed output, power supply 110 → 240 V ac
896-6891	24h/7 programmable timer, with ON/OFF output, power supply 12 V dc

DC GEARED MOTORS

- 38 mm geared motors designed for low voltage applications
- 24 V dc supply voltage
- Spur gear head for constant output torque
- 6 mm diameter shaft

901-3320	24 V dc geared motor, 23 rpm, max. torque 600 mNm
901-3327	24 V dc geared motor, 5 rpm, max. torque 600 mNm
901-3305	24 V dc geared motor, 260 rpm, max. torque 70 mNm

SINGLE-PHASE FREQUENCY INVERTERS

- Heatsink cooling, without fan
- Integrated grounding terminals to provide increased grounding protection
- Single-phase input with built-in EMC filter
- Input voltage from 200 to 240 V ac
- 5-digit LED display

122-3410	Frequency inverter 230 V ac / 7.2A / 0.4 kW, output frequency 0.01 → 599Hz
122-3411	Frequency inverter 230 V ac / 11A / 0.75 kW, output frequency 0.01 → 599Hz
122-3413	Frequency inverter 230 V ac / 15.5A / 1.5 kW, output frequency 0.01 → 599Hz

M18 CYLINDRICAL PHOTOCELLS

- Range of M18 threaded cylindrical photoelectric sensors
- Nickel-plated brass body with IP67 protection
- Suitable for most industrial applications
- Two-colour LED status indication
- CE certified and UL approved
- 2 m 4-wire cable

729-5110	Photocell with reflex technology, range 50 mm-7 m, NPN output
729-5107	Photocell with on-target detection technology, range 1-140 mm, PNP output
729-5094	Photocell with on-target detection technology, range 1-140 mm, NPN output

PROXIMITY SENSOR TESTER

- Designed to quickly and reliably test the operation of 3 or 4-wire proximity sensors with PNP or NPN outputs
- Suitable for inductive, capacitive, photoelectric or ultrasonic sensors

839-9875	RS PRO proximity sensor tester

CONNECTORS FOR K-TYPE THERMOCOUPLES

- Green, according to IEC colour coding, for quick and easy identification
- Flat polarized contacts for precise connection
- Made of fibreglass-reinforced thermoplastic
- Capable of withstanding up to 220 °C
- For thermocouple wires up to 4 mm in diameter

455-9764	Male connector for K-type thermocouples
455-9758	Female connector for K-type thermocouples
455-9742	sPanel female connector for K-type thermocouples
455-9786	Male and female connectors kit for K-type thermocouples

INDUCTIVE PROXIMITY SENSORS

- Versatile, high quality sensors specially designed for industrial environments
- Manufactured in nickel-plated brass housing with IP67 protection
- Operating temperature from -25 to +75 °C
- Including short circuit, overload and reverse polarity protection

701-8231	Proximity sensor with M12 threaded body, range 2 mm, PNP output, M12 connector
701-8225	Proximity sensor with M12 threaded body, range 2 mm, PNP output, 3-wire cable
701-8250	Proximity sensor with M12 threaded body, range 4 mm, NPN output, 3-wire cable

MANOMETRIC PRESSURE SENSORS

- Suitable for a wide range of industrial applications with IP67 protection
- Ceramic piezoresistive sensor (AL2 O3 96%) providing excellent media compatibility
- Compact and corrosion-resistant 316L stainless steel housing
- O-rings: Viton

797-5018	Relative pressure sensor 0-10 bar, G¼ thread, 4-20 mA output, DIN 43650 connector type C
175-4986	Relative pressure sensor 0-10 bar, G¼ thread, output 0-5 V dc, connector M12
797-5030	Relative pressure sensor 0-25 bar, G¼ thread, output 0-5 V dc, DIN 43650 connector type C

PRT PROBES (PLATINUM RESISTANCE THERMOMETER)

- High-quality PRT PT100 and PT1000 probes
- Manufactured to industry standards, these stainless steel probes are an excellent solution for temperature measurement

896-8395	PT100 probe, 5 mm diameter x 50 mm, max. temp. +100°C, 1.5m cable
896-8399	PT1000 probe, 5 mm diameter x 50 mm, max. temp. +100°C, 1.5m cable

RS PRO

PNEUMATIC QUICK CONNECT COUPLINGS

- Polyoxymethylene (POM) body and nickel-plated finish for corrosion protection
- POM is a good insulator with excellent abrasion resistance
- Maximum pressure of 10 bar
- Operating temperature from 0 °C to +60 °C

916-0873	Push-in quick connect couplings, 6mm, straight
916-0877	Push-in quick connect couplings, 8mm, straight
916-0909	Push-in quick connect couplings, 6mm, T
916-0902	Push-in quick connect couplings, 8mm, T

NYLON HOSES FOR PNEUMATICS

- Flexible, light and durable, resistant to a wide range of chemicals
- Made of nylon with excellent resistance to ageing
- High moisture absorption and abrasion resistance
- Without silicone

483-4970	Flexible nylon hose, blue, ext. Ø 6 mm, length 30 m
483-5030	Flexible nylon hose, blue, ext. Ø 8 mm, length 30 m
483-5080	Flexible nylon hose, blue, ext. Ø 10 mm, length 30 m
483-5557	Transparent flexible nylon hose, ext. Ø 6 mm, length 30 m
483-5002	Transparent flexible nylon hose, ext. Ø 8 mm, length 30 m

PRESSURE REGULATOR

- A pressure regulator is an essential device in pneumatic systems to control and adjust compressed air pressure, ensuring stable and accurate operation of equipment such as cylinders and pneumatic tools

235-1139	Pneumatic regulator, G ¼ connection, pressure 0.3 bar → 10 bar

MANUAL PNEUMATIC VALVES

- When deactivated the valves discharge residual pressure and block the air flow
- Used to connect and disconnect air to pneumatic devices, such as blowers, drills or paint sprayers
- Suitable for applications up to 10 bar pressure and use of polyurethane or nylon tubing

916-0968	Manual pneumatic valve for 6mm tubing
916-0962	Manual pneumatic valve for 8mm tubing
916-0971	Manual pneumatic valve for 10mm tubing

ANALOGUE PRESSURE GAUGES

- These pressure gauges are versatile and reliable, ideal for pneumatic applications, such as low capacity compressors, heating, air conditioning, etc.
- They efficiently control pressures in gaseous and liquid media.

722-788	Analogue pressure gauge with back connection, 0 bar → 10 bar, thread R1/8, Ø ext. 40 mm
188-986	Analogue pressure gauge with bottom connection, -1 bar → 0 bar, BSP connection 3/8, Ø ext. 100 mm

BALL VALVES

- Manage the compressed air supply in your application with these small shut-off valves
- These valves offer the ability to stop or allow air flow at specific times, adjusting to the precise needs of your application

486-334	Shut-off valve, G ¼ connection, male - female
486-277	Shut-off valve, G ¼ connection, female - female

BALL BEARINGS

- Ball bearings are very common and versatile, have low friction, low noise and vibration
- They allow high rotational speeds and support radial and axial loads
- Easy to install and low maintenance

618-9979	Ball bearing 6800-2RS, Ø int. 10 mm, Ø ext. 19 mm, width 5 mm
619-0014	Ball bearing 626-2Z, Ø int. 6 mm, Ø ext. 19 mm, width 6 mm
618-9957	Ball bearing 608-2RS, Ø int. 8 mm, Ø ext. 22 mm, width 7 mm
619-0036	Ball bearing 608-2Z, Ø int. 8 mm, Ø ext. 22 mm, width 7 mm
619-0121	Ball bearing 6001-2RS, Ø int. 12 mm, Ø ext. 28 mm, width 8 mm
619-0345	Ball bearing 6004-2RS, Ø int. 20 mm, Ø ext. 42 mm, width 12 mm

FOOT BRACKETS WITH BALL BEARINGS

- Ball bearing units with foot brackets consist of a ball bearing mounted in a cast housing that can be bolted to a supporting surface

750-8933	Bearing-mounted foot bracket, Ø int. 12 mm
750-8949	Bearing-mounted foot bracket, Ø int. 17 mm
750-8946	Bearing-mounted foot bracket, Ø int. 20 mm
750-8952	Bearing-mounted foot bracket, Ø int. 25 mm
750-8964	Bearing-mounted foot bracket, Ø int. 30 mm
750-8977	Bearing-mounted foot bracket, Ø int. 35 mm

SHAFT COLLARS

- The shaft collar is a mechanical part for securing components, such as pulleys or gears, to the end of a shaft
- Placed around the shaft and fastened with one or more screws, the collar provides stability and enables efficient transmission of motion between the shaft and the mounted component

823-6939	Shaft collar with set screw for 6 mm shafts
823-6941	Shaft collar with set screw for 8 mm shafts
823-6954	Shaft collar with set screw for 10 mm shafts
823-6963	Shaft collar with set screw for 16 mm shafts
823-6976	Shaft collar with set screw for 20 mm shafts
823-6982	Shaft collar with set screw for 25 mm shafts

TIMING BELTS

- Miniature rubber timing belts
- Fibreglass reinforced rubber teeth
- Available in different sizes to suit different application needs

778-5039	57-tooth timing belt with 2,032 mm pitch, length 115.82 mm
778-5032	60-tooth timing belt with 2,032 mm pitch, length 121.92 mm
778-5067	103-tooth timing belt with 2,032 mm pitch, length 209.3 mm
778-5073	115-tooth timing belt with 2,032 mm pitch, length 233.68 mm
778-5076	126-tooth timing belt with 2,032 mm pitch, length 256.03 mm
778-5086	165-tooth timing belt with 2,032 mm pitch, length 335.28 mm

O-RING KITS

- Very popular in sealing applications, nitrile O-rings are resistant to water, petrol and petroleum derivatives, propane and some hydraulic fluids
- Viton O-rings are recommended for applications with high temperatures and/or aggressive chemical products

705-8958	Nitrile metric O-ring kit, 385 pcs.
756-034	Nitrile metric O-ring kit, 510 pcs.
245-9628	Viton® metric O-ring kit, 510 pcs.
756-028	Nitrile imperial O-ring kit, 382 pcs.
756-040	Viton® imperial O-ring kit, 382 pcs.

POLYURETHANE HEAT-SEALABLE CORDS

- Heat-sealable cord, ideal for creating and replacing straps in place according to application needs
- High tensile strength
- Easy to join, no special safety measures required

309-8094	Polyurethane heat-sealable cord, 5 m, Ø 2 mm
309-8101	Polyurethane heat-sealable cord, 5 m, Ø 3 mm
309-8117	Polyurethane heat-sealable cord, 5 m, Ø 4 mm
309-8123	Polyurethane heat-sealable cord, 5 m, Ø 5 mm
309-8145	Polyurethane heat-sealable cord, 5 m, Ø 8 mm

RS PRO

## CONNECTION CABLES WITH TRIPLE CERTIFICATION

- Ideal for wiring instrumentation panels and switchboards, these flexible cables meet the specifications of three standardization bodies
- Voltage up to 1000V

628-5320	Triple-certified connection cable, black, cross-section 10 mm², length 100 m
906-2726	Triple-certified connection cable, blue, cross-section 10 mm², length 100 m
628-5493	Triple-certified connection cable, brown, cross-section 10 mm², length 100 m
628-5358	Triple-certified connection cable, green and yellow, cross-section 10 mm², length 100 m
628-5314	Triple-certified connection cable, red, cross-section 10 mm², length 100 m
628-5516	Triple-certified connection cable, grey, cross-section 10 mm², length 100 m

CONNECTION CABLES FOR HARSH ENVIRONMENTS

- Silicone sheathed connection cables, suitable for harsh environments and high temperatures
- Tin-plated copper cable
- Available in 100 m reels

265-3022	Black connection cable, cross-section 1 mm²
265-3016	Red connection cable, cross-section 1 mm²
265-3038	Green and yellow connection cable, cross-section 1 mm²

LIYCY SHIELDED CABLES FOR DATA AND SIGNAL TRANSMISSION

- LiYCY shielded cables are multi-core, flexible cables used in industry for data and signal transmission in fixed installations and applications with movement that require flexibility but without tensile stress

136-8214	2-conductor LiYCY cable, cross-section 0.75 mm², length 100 m
136-8215	3-conductor LiYCY cable, cross-section 0.75 mm², length 100 m
136-8216	4-conductor LiYCY cable, cross-section 0.75 mm², length 100 m

XLR FORMAT ETHERNET COUPLERS FOR PANEL MOUNTING

- With RJ45 female connectors at both ends, these XLR format Ethernet couplers are a secure and practical solution for establishing connections through a panel
- Versions for UTP and FTP cables

916-0243	Ethernet Cat5e coupler, UTP shield
916-0252	Ethernet Cat5e coupler, FTP shield
916-0255	Ethernet Cat6 coupler, UTP shield
916-0259	Ethernet Cat6 coupler, FTP shield

XLR FORMAT USB CONNECTORS FOR PANEL MOUNTING

- Assortment of USB connectors, XLR format for panel mounting, ideal for ensuring a reliable USB connection by connecting a USB cable on each side of the panel
- Various interfaces available

916-0221	USB 2.0 pass-through connect A to A
916-0227	USB 2.0 pass-through connector, interface B to A
916-0215	USB 3.0 pass-through connector, interface A to A
916-0224	USB 3.0 pass-through connector, interface B to A
143-8923	USB C pass-through connector
203-5583	USB C double pass-through connector

HOLLOW FERRULES

- The hollow ferrules are used to enable precise insertion of the wires into the various terminals and provide a better grip on screw connections, ensuring a reliable connection
- Available in various sizes and colours

458-689	Hollow ferrules for white 0.5 mm² cables
458-702	Hollow ferrules for red 1 mm² cables
211-4280	Uninsulated hollow ferrules for 1.5 mm² cables
458-718	Hollow ferrules for black 1.5 mm² cables
458-780	Hollow ferrules for blue 2.5 mm² cables
178-8746	Hollow ferrules for two 4 mm² cables

TINNED COPPER BRAIDED SLEEVES FOR CABLES

- The shielding mesh provides effective shielding for cable harnesses and wires against electromagnetic, electrostatic and radio frequency interferences

181-1981	Braided sleeve for cables, length 10 m, Ø 4 mm
181-1982	Braided sleeve for cables, length 10 m, Ø 6 mm
181-1985	Braided sleeve for cables, length 10 m, Ø 12.5 mm
181-2004	Braided sleeve for cables, length 100 m, Ø 4 mm
181-2022	Braided sleeve for cables, length 100 m, Ø 7.5 mm
181-2023	Braided sleeve for cables, length 100 m, Ø 10 mm

SELF-ADHESIVE BASES FOR CABLE TIES

- The adhesive cable tie bases are elements designed to simplify the organization and fastening of cables or other elements
- They have an adhesive surface on the back for easy installation on different kinds of surfaces

204-0240	Self-adhesive natural colour bases for cable ties, dim. 12.5 mm x 12.5 mm
811-1713	Self-adhesive natural colour bases for cable ties, dim. 19.5 mm x 19.5 mm
811-1717	Self-adhesive natural colour bases for cable ties, dim. 29.2 mm x 29.2 mm
811-1723	Self-adhesive black bases for cable ties, dim. 12.5 mm x 12.5 mm
811-1726	Self-adhesive black bases for cable ties, dim. 19.5 mm x 19.5 mm
811-1729	Self-adhesive black bases for cable ties, dim. 29.2 mm x 29.2 mm

## CONDENSATE DRAIN PLUG FOR ELECTRICAL CABINETS

- Protect your electrical cabinet against corrosion with our drain plug. Eliminates condensation that can form with temperature changes, maintaining an optimum indoor environment, prolonging the life of your electrical equipment.

838-827	Condensate drain plug

NON-REMOVABLE CABLE TIES

- Nylon cable ties are an essential part of cable management and cable organisation, providing a fast and efficient fastening solution in a wide range of applications
- Various sizes available

233-487	Nylon cable ties, black, dim. 300 mm x 4.8 mm, 100 pcs.
269-1799	Nylon cable ties, black, dim. 300 mm x 4.8 mm, 250 pcs.
811-1650	Nylon cable ties, black, dim. 300 mm x 4.8 mm, 1,000 pcs.

VANDAL-PROOF SWITCHES

- Designed to prevent intentional damage, these vandal-proof buttons are the perfect choice for devices in public spaces or remote locations. From "Push to Talk" intercoms to service station equipment, parking systems, etc.

811-8480	SPDT button, momentary action, 5 A @ 250 V ac, non-illuminated
111-6527	SPST button, momentary action, 2A @ 36V dc, blue LED, 24V ac/dc
811-8433	SPDT button, maintained action, 3 A @ 250 V ac, yellow LED, 24V ac/dc
811-8519	SPDT button, maintained action, 5 A @ 250 V ac, red LED, 24V ac/dc
811-8538	SPDT button, momentary action, 5 A @ 250 V ac, blue LED, 24V ac/dc
811-8483	SPDT button, maintained action, 5 A @ 250 V ac, blue LED, 12 V dc

METAL CABINETS

- Wall-mounted cabinets, with their sturdy design for wall mounting, protect electrical components such as switches, control panels and switchgear in any environment

775-5788	Metal cabinet, 300 x 200 x 150 mm, IP66
775-5814	Metal cabinet, 500 x 400 x 200 mm, IP66
775-5356	Metal cabinet, 700 x 500 x 260 mm, IP66
775-5366	Metal cabinet, 1000 x 600 x 260 mm, IP66

STORAGE MODULES WITH DRAWERS

- Polypropylene drawer units with semi-transparent pull-out drawers
- Ideal for storing and arranging small components
- Depending on the weight of the stored parts, it is recommended you fix the drawers to the wall

877-6803	30-drawer module (420 mm x 270 mm x 130 mm)
877-6812	40-drawer module (420 mm x 270 mm x 130 mm)

MODULAR STORAGE SHELVES

- Modular shelving with 5 height adjustable shelves
- Each shelf unit consists of four uprights, five shelves, shelf supports and four plastic feet
- Max. load capacity, 265 kg

771-9180	Modular shelving with 5 shelves, 1800 mm x 900 mm x 450 mm
813-3228	Modular shelving with 5 shelves, 1800 mm x 900 mm x 600 mm

CABINETS FOR HAZARDOUS SUBSTANCES

- Safe storage solution for flammable liquids, chemicals, paints, pesticides and other potentially hazardous substances
- Completely welded structure with spill-proof sump and shelves with drainage holes

424-5364	Hazardous materials cabinet with 1 door and 1 shelf, 457 mm x 457 mm x 305 mm
314-7641	Hazardous materials cabinet with 2 doors and 1 shelf, 915 mm x 712 mm x 459 mm
251-867	Hazardous materials cabinet with 2 doors and 2 shelves, 1125 mm x 1535 mm x 560 mm
314-7663	Hazardous materials cabinet with 2 doors and 3 shelves, 915 mm x 1830 mm x 459 mm

BOXES WITH COMPARTMENTS

- Organizer boxes with compartments to store any type of objects, such as screws, nuts, washers, O-rings, etc.
- 5 fixed sections and 12 adjustable dividers for customized configuration
- Transparent lid to see the contents easily

435-0179	Organizer box with adjustable compartments (60 mm x 395 mm x 305 mm)
435-0191	Organizer box with adjustable compartments (60 mm x 510 mm x 330 mm)

TRAYS

- The storage trays enable classification and quick access to tools and parts, keeping order in workshops and warehouses, to optimize your work space
- Available in various colours and sizes

484-4056	Blue tray, 240 x 150 x 130 mm
484-4107	Blue tray, 350 x 205 x 130 mm
484-4034	Red tray, 240 x 150 x 130 mm
484-4078	Red tray, 350 x 205 x 130 mm
484-4062	Yellow tray, 240 x 150 x 130 mm
484-4113	Yellow tray, 350 x 205 x 130 mm

LOCKERS

- Discover the fusion of modern design and security with our lockable lockers, perfect for storing your clothes and belongings safely, each unit includes two keys
- Ideal for work environments, gyms and universities

521-374	Locker with 1 door with lock, 1800 mm x 300 mm x 450 mm
521-364	Locker with 2 doors with lock, 1800 mm x 300 mm x 450 mm

THREADED BRASS INSERTS FOR PLASTIC

• The brass threaded inserts for plastic ensure a sturdy and durable threaded connection. They provide reusable threads and increase load capacity up to four times by extending the shear surface area.
• There are models without head designed for flush mounting, and others with head for surface mounting.

278-534	M3 headless threaded inserts, flush mounting
278-556	M4 headless threaded inserts, flush mounting
278-578	M6 headless threaded inserts, flush mounting
278-584	M3 threaded inserts with head, surface mounting
278-607	M4 threaded inserts with head, surface mounting
278-629	M6 threaded inserts with head, surface mounting

SCREW AND BOLT KITS

• Assortments of stainless steel screws in different lengths and sizes, supplied in compartment boxes
• Different head and recess shapes available

466-7720	Nuts and bolts kit with hexagon head M6, M8, M10, M12, 624 pcs.
225-3357	Allen screw kit with internal hexagon socket M3, M4, M5, M6, 545 pcs.
281-984	Screw kit with Pozidriv recess M2, M2.5, M3, M4, M5, M6, 3,168 pcs.
281-978	Screw kit with slotted recess M2, M2.5, M3, M4, M5, M6, 3,168 pcs.
819-9004	Washers, nuts and bolts kit with Torx recess M3, M4, M5, M6, 2,475 pcs.

ELASTIC CLAMPS

• The elastic clamps, also known as pipe clamps, are versatile fastening tools that easily adjust to a variety of pipe sizes and clamp securely and reliably

507-797	Elastic clamps, Ø 19.05 mm
507-810	Elastic clamps, Ø 12.7 mm
507-775	Elastic clamps, Ø 28.58 mm
507-781	Elastic clamps, Ø 25.4 mm

NYLON BODY SEPARATORS

• The separators are used to separate a printed circuit board (PCB) from other components or boards, performing a function similar to spacers.
• The female-female type has internal threads at both ends, while the male-female type has an internal thread at one end and a threaded bolt at the other, enabling the connection between components.

653-9403	Threaded male-female separators, M3 x M3, Ø ext. 8 mm, length 13 mm
653-9368	Threaded male-female separators, M4 x M4, Ø ext. 8 mm, length 25 mm
653-9419	Threaded male-female separators, M4 x M4, Ø ext. 8 mm, length 30 mm
653-9374	Threaded male-female separators, M4 x M4, Ø ext. 8 mm, length 20 mm

THREADED INSERTS FOR REPAIRING METAL THREADS

• Also known as helical inserts or helicoils, these are small cylinders with internal threads that allow the repair of damaged threads in materials such as steel, plastic or wood without having to replace the entire part

175-0422	M4 threaded inserts, length 6 mm
175-0430	M5 threaded inserts, length 10 mm
175-0424	M6 threaded inserts, length 9 mm
175-0425	M8 threaded inserts, length 12 mm
175-0420	M12 threaded inserts, length 12 mm

SCREW AND DOWEL SET

• This fastening set contains different coloured dowels for quick size identification, corresponding drill bits and different screw sizes
• Dowels 5, 6 and 7 (100 pcs. of each)

537-1852	Screw and dowel set, 606 pcs.

BATTERIES AND POWER SUPPLIES

RS PRO

NIMH RECHARGEABLE BATTERIES

- For more responsible and sustainable use, rechargeable nickel metal hydride (NiMH) batteries enable hundreds of recharges
- Compatible with any NiMH battery chargers
- Various sizes and capacities available

504-6051	AAA rechargeable NiMH batteries, 1.2V, 800 mAh
617-0767	AAA rechargeable NiMH batteries, 1.2V, 1 Ah
183-4281	AAA rechargeable NiMH batteries, 1.2V, 1.1 Ah
6118-674	AA rechargeable NiMH batteries, 1.2V, 1.7 Ah
476-2033	AA rechargeable NiMH batteries, 1.2V, 2.3 Ah
6170-773	AA rechargeable NiMH batteries, 1.2V, 2.6 Ah

ALKALINE BATTERIES

- Long-life, non-rechargeable alkaline batteries, ideal for powering everyday electronic devices
- Rated voltage: 1.5 V, 4.5 V and 9 V
- Various sizes and capacities available

826-4432	Alkaline batteries, C size, 1.5 V, 15 pcs. pack
826-4423	Alkaline batteries, D size, 1.5 V, 15 pcs. pack
790-4697	Pouch battery, 4.5V, 4.4 Ah
826-4435	Alkaline batteries, 9 V, 15 pcs. pack

CR LITHIUM BUTTON CELL BATTERIES

- CR non-rechargeable button cell batteries have a voltage of 3 V and are made of lithium-manganese dioxide
- Supplied in multiples of 5 pcs.
- Available in a wide variety of sizes and capacities

866-0653	CR1220 button cell batteries, 3V, 36 mAh
866-0663	CR2025 button cell batteries, 3V, 160 mAh
866-0672	CR2032 button cell batteries, 3V, 225 mAh
866-0675	CR2430 button cell batteries, 3V, 300 mAh
866-0679	CR2450 button cell batteries, 3V, 620 mAh

AA AND AAA ALKALINE BATTERIES

- Non-rechargeable AA and AAA 1.5 V alkaline batteries
- Available in packs of 12, 20 and 100 pcs.

744-2199	AA alkaline batteries, 1.5 V, 12 pcs. pack
917-6588	AA alkaline batteries, 1.5 V, 20 pcs. pack
789-2828	AA alkaline batteries, 1.5 V, 100 pcs. pack
744-2209	AAA alkaline batteries, 1.5 V, 12 pcs. pack
917-6581	AAA alkaline batteries, 1.5 V, 20 pcs. pack
789-2821	AAA alkaline batteries, 1.5 V, 100 pcs. pack

LEAD ACID BATTERIES

- Sealed lead-acid batteries suitable for industrial applications, aerospace and uninterruptible power supply (UPS) systems
- Rugged ABS resin housings with UL 94-HB flammability rating
- No maintenance required

537-5422	Lead acid batteries, 6V, 4Ah, Faston F1 terminals
727-0382	Lead acid batteries, 6V, 7Ah, Faston F2 terminals
686-7253	Lead acid batteries, 12V, 5Ah, Faston F1 terminals
537-5488	Lead acid batteries, 12V, 7Ah, Faston F1 terminals
537-5494	Lead acid batteries, 12V, 18Ah, threaded T12 terminals

POWER SUPPLIES

- Wide range of closed frame or DIN-rail mountable switch-mode power supplies, ideal for most electronic applications
- Various configurations available

161-8278	Switch-mode power supply, 5V dc, 10A, 50W
161-8285	Switch-mode power supply, 12V dc, 6A, 72W
161-8270	Switch-mode power supply, 24V dc, 8.4A, 200W

BATTERY HOLDER

- Compact and orderly solution for storing batteries required to power electronic devices
- Different models available depending on size and number of batteries

185-4726	Battery holder for 3 AAA batteries
594-628	Battery holder for 4 AA batteries
594-612	Battery holder for 4 C size batteries
185-4698	Battery holder for 2 D size batteries

LEAD ACID BATTERY CHARGERS

- 12 or 24 V DC lead acid battery chargers
- Supplied with cables terminated with clamps
- Input voltage from 100 to 240 V AC
- They have several protection levels – against overvoltage (OVP), overcharge (OCP), and high temperature (OTP)

|	
549-283	Lead acid battery charger, 12V, 2A output, EU plug
549-338	Lead acid battery charger, 12V, 4A output, EU plug
549-328	Lead acid battery charger, 12V, 10A output, EU plug
549-300	Lead acid battery charger, 24V, 2A output, EU, UK plug

BATTERY TESTER

- Allows you to check the charge status of alkaline batteries, button cells and digital camera batteries in a jiffy
- Suitable for a wide range of sizes

176-9374	Battery tester

SOLAR CHARGER

- Solar charger kit for powering or recharging portable devices in remote locations where there is no electricity
- Ideal for exterior work
- 2 Ah battery capacity

906-4236	Solar charger

LI-ION BATTERY CHARGER

- 3-cell Li-ion battery charger
- 11.1 V output voltage
- Has interchangeable plugs for adaptation to other countries
- Supplied with several output connectors enabling polarity reversal

173-5590	Li-ion battery charger, 11.1 V output, 2A, AUS, EU, UK, USA plug

CONTACTS FOR 9V BATTERY

- Together with a 9V battery, they are the perfect combination for powering prototypes and electronic devices
- Various cable lengths

185-4790	Contacts for 9V battery, 150 mm cables
489-021	Contacts for 9V battery, 250 mm cables, 5 pcs.

PERSONAL PROTECTION EQUIPMENT

WORK GLOVES

- Reusable seamless nylon gloves, snug fit for greater sensitivity and precision
- Nitrile-coated palm for high abrasion resistance
- Provide excellent gripping in dry or oily conditions

869-1578	Work gloves with nitrile-coated palm, size 9
869-1572	Work gloves with nitrile-coated palm, size 10

DISPOSABLE EARPLUGS

- The tapered earplug design provides a comfortable and precise fit for a wide variety of auditory canals, reducing noise levels by up to 37 dB
- Dispenser available for easy earplug access and distribution

918-5703	Disposable earplugs supplied in box of 500 pairs
918-5709	Reusable earplug dispenser

SAFETY GLASSES WITH CLEAR LENSES

- General use safety glasses with modern, lightweight design, equipped with adjustable temples for maximum comfort
- The transparent lenses have anti-scratch treatment and resistance to low energy impacts below 45 m/s

918-5743	Safety glasses with UV and anti-scratch protection

FFP2 DISPOSABLE MASK

- FFP2 mask with valve designed to protect people exposed to particles, fine toxic dust, fumes and vapours
- Exhalation valve helps breathing with less resistance and adjustable nose clip provides greater user comfort

918-5826	FFP2 disposable mask with valve

SAFETY HELMETS

- Lightweight helmets with ventilation slots for better heat dissipation
- Adjustable 6-point textile harness with a wheel, padded strap and chinstrap
- Short visor for better visibility

161-8137	Yellow safety helmet
161-8136	Orange safety helmet

SAFETY BOOTS

- Combine safety and comfort with these waterproof and abrasion-resistant leather boots with mesh lining and EVA rubber insoles to reduce fatigue and provide greater wearer comfort
- Anti-static and oil-resistant soles, ideal for demanding environments

246-0990	Waterproof safety boots, size EU 38
246-0992	Waterproof safety boots, size EU 41
246-0994	Waterproof safety boots, size EU 42
246-0996	Waterproof safety boots, size EU 44
246-0997	Waterproof safety boots, size EU 46
246-0999	Waterproof safety boots, size EU 48

LAMPS FOR MACHINERY

- Good lighting is essential to work safely and avoid accidents
- There are different ways to correctly light the workplace, using a flexo, a spotlight or a linear bar, for example

777-7974	Flexo type machinery lamp with adjustable arm, 24 V, 12 W
777-7952	Flexo type machinery lamp with flexible neck, 100 → 277 V ac, 3 W
777-7962	Adjustable spotlight for machinery, 24 V, 12 W
777-7965	Linear bar type machinery lamp, 100 → 260 V AC, 24 W

INDUSTRIAL LED HOODS

- Lighting plays an important role in worker safety, LED industrial hoods provide perfect lighting for workshops and warehouses
- Improve your warehouse lighting and save energy with LED technology

231-8135	Industrial LED hood, 150 W, 19 500 lm, 4000 K, dimmable
231-8136	Industrial LED hood, 150 W, 19 500 lm, 6500 K, dimmable
231-8137	Industrial LED hood, 200 W, 26 000 lm, 4000 K, dimmable
231-8138	Industrial LED hood, 200 W, 26 000 lm, 6500 K, dimmable

LED FLOODLIGHTS

- The LED floodlights are ideal for lighting specific spaces, both indoor and outdoor
- IP65 protection rating, dust and watertight
- 6500 K colour temperature

787-1317	LED floodlight, 30 W, 2400 → 2700 lm
872-4127	LED floodlight, 150 W, 13500 → 14500 lm

RECHARGEABLE POCKET FLASHLIGHTS

- Thanks to their small size, these flashlights fit perfectly in your pocket
- They have a magnetic base that enables illumination of the work area, without having to hold the flashlight
- Various light output options

219-8130	Pocket flashlight, 600 lm, 125 m range
219-8131	Pocket flashlight, 1500 lm, 190 m range
219-8132	Pocket flashlight, 1800 lm, 200 m range

EMERGENCY LIGHTING

- Emergency lighting plays a crucial role in safety and security, and maintains visibility in adverse conditions, thus contributing to the protection and efficient evacuation of people in case of contingencies
- Various models available with IP65 protection, with or without batteries

795-9378	3W LED emergency light
146-8981	2 0.5W LED emergency light
192-7110	6.5W LED emergency light

HEADLAMPS

- The headlamps are characterized by their powerful brightness, and enable the user to work efficiently and hands-free in low-light environments
- Various models with different light output

186-4621	Headlamp, 250 lm, 66 m range, IPX6
186-4622	Headlamp, 450 lm, 100 m range, IPX5
219-8134	Headlamp, 575 lm, 148 m range, IP64
219-8135	Headlamp, 815 lm, 55 m range, IP64

RS PRO

SPRAY PAINTS

- Acrylic aerosol paints with high covering capacity
- Fast drying
- Chemical and water-resistant
- Wide range of colours
- 400 ml aerosol

764-3023	White spray paint, gloss
764-3049	Red spray paint, gloss
764-3036	Black spray paint, gloss
764-3039	Black spray paint, matt
764-3064	Gray primer spray

EPOXY ADHESIVES

- Quick-drying, two-component epoxy adhesives, provided in double cartridges for easy and clean application
- They can be used with most materials, such as glass, wood, metals and plastics
- Applicators and nozzles available

132-605	Transparent epoxy adhesive, 24 ml double cartridge
406-9592	Yellow epoxy adhesive, 200 ml double cartridge
850-962	Black epoxy adhesive, 25 ml double cartridge (only for ES)

ISOPROPYL ALCOHOL (IPA)

- Isopropyl alcohol is a versatile solvent and disinfectant, widely used in industrial areas for cleaning electronic boards and components, removing solder residues and fluxes, cleaning machinery and tools, etc.
- Various formats and containers available

187-6955	Isopropyl alcohol cleaner, 1 l bottle
136-8530	Isopropyl alcohol cleaner, 400 ml aerosol
567-890	Isopropyl alcohol cleaner, 500 ml can

SILICONE FOAM ADHESIVE TAPES

- With one adhesive-coated side, these silicone foam tapes are perfect for shock and vibration absorption, as well as thermal insulation applications

733-6781	Silicone foam adhesive tape, grey, length 6.1 m, width 12 mm, thickness 2.4 mm
733-6797	Silicone foam adhesive tape, grey, length 5 m, width 20 mm, thickness 6.4 mm

CONDUCTIVE PAINT

- This conductive silver paint is mostly used to repair PCB tracks or to draw electrical connections on non-solderable surfaces
- Quick drying, circuit ready to use in less than 30 minutes

186-3600	Conductive paint, 20 g bottle
123-9911	Conductive paint, 5 g bottle

SILICONE GREASE

- General use silicone grease, suitable for thermal conductivity and sealing applications
- Temperature range from -50ºC to 200ºC
- It is both a good electrical insulator and waterproof

494-124	100 g silicone grease tube

FOAM CORNER AND EDGE PROTECTORS

• These foam protectors include a strong adhesive for easy installation
• Cushion and reduce damage with impacts
• Black and yellow for higher visibility
• Various options available

724-9788	Foam corner protector (length 750 mm, width 30 mm)
724-9794	Angled foam protector (length 75 mm, width 30 mm)
724-9782	Foam corner protector (length 5 m, width 30 mm)
724-9779	Round foam edge protector (length 750 mm, Ø 40 mm)

SPILL ABSORBERS

• It is important to contain spills as soon as possible, to prevent falls and soil contamination
• White – for oil spills
• Yellow – any chemical substance
• Black and grey – same as yellow, except for aggressive chemical substances

189-0029	Oil spill absorbers, 30 l absorption
189-0030	Maintenance spill absorbent, 30 l absorption
189-0031	Chemical spill absorbent, 60 l absorption
189-0032	Oil spill absorbers, 60 l absorption
771-6399	Chemical product spill absorbents, 18 l absorption, box of 20 wipes

BEACON TAPES

• Using these marking tapes makes it is easy to restrict access to dangerous areas or to control access to work sites
• Two colour combinations available – red and white or black and yellow

503-708	Black/yellow beacon tape (50 mm x 100 m)
503-714	Red/white beacon tape (50 mm x 100 m)

SIGNALLING CONES

• Class 1 or 2 reflective signalling cones, depending on model
• Ideal for warehouses, factories, car parks
• Various heights available

503-681	Class 1 reflective signalling cone, height 30 cm
221-7861	Class 1 reflective signalling cone, height 50 cm
221-7863	Class 1 reflective signalling cone, height 75 cm

HAZARD WARNING SIGNS

• Hazard warning signs are useful for signalling any risk to a person's physical integrity
• The ISO 7010 standard has a series of internationally recognized graphic designs, colours and pictograms to improve worker safety

813-4423	Self-adhesive electrical hazard warning sign (100 mm x 100 mm)
776-0945	Self-adhesive electrical hazard warning sign (150 mm x 150 mm)
813-4445	Self-adhesive hot surface danger warning sign (100 mm x 100 mm)

CONSIGNMENT, BLOCKING AND LABELLING

• Machine consignment consists of:
• Separating the machine from all power sources
• Locking it to prevent unintentional activation
• Eliminating any source of accumulated energy that could lead to a hazardous situation

862-5247	Set of 24 consignment products for electrical panels and valves
862-5240	Locking kit for valves
489-141	Steel locking jaw for 6 padlocks

OUR GOAL
IS TO HELP YOU

We expand our extensive product range with innovative solutions designed to address your purchasing, inventory management, and maintenance challenges, all while promoting a safer working environment.
